

## How can I print Patient labels for all my patients in DMEFree?

Monday, 19 October 2009 10:13 -

---

Good for you, marketing is the best way to reach more business!

use the attached or go to

<http://www.dmefreeserver.com/files/DMEFAVERY5160.exe>

this little update will put a report file into your working dmefree folder and a link on the desktop

you will then be able to print mailling labels using the AVERY 5160 or compatible label
