

PC Solutions Software Development Inc. is know for the products we design , sell and support

Our products are

DMEFree

DMEFreePlus formerly known as RxDME2000

DMEFreeWeb

DMEFree Eligibility Software.

We have been designing software since the 'dos' days (in the 80's). And were the first nationally advertised Durable Medical Equipment billing software that created a windows version.

PC Solutions also created DMEFreeWeb almost 5 years before our closest competition.

DMEFreeWeb is a web based ASP system.

The main reason clients from all over the US use our services and products because we offer affordable prices for our software and billing services and our support is top notch. We always return clients calls, emails etc usually within minutes.
